Operations Manager *San Antonio, TX, USA*

- Managed $24,000+ in monthly commercial cleaning contracts across 12 client locations including offices, medical facilities, and industrial site
- Improved client satisfaction and contract retention by an estimated 55% through proactive issue resolution and regular inspections.
- Coordinated supply ordering and purchasing workflows to support staffing, and contract execution across multiple locations.

Sams club **July 2024 - Present**

Tire and Battery Center *San Antonio, TX, USA*

- Contributed to a Tire & Battery Center ranked #1 in Market 12 for year-to-date sales through service efficiency.
- Implemented a workflow procedure that increased battery testing and attachment performance by 30%.
- Managed monthly shop supply ordering and inventory coordination to support operational readiness and workflow continuity.

PROJECTS

Jan-Pro Dispatch Optimization

Built a Google Maps API-integrated dispatch and workforce allocation system using Excel and Power Query to improve staffing coordination, backup coverage, and scheduling efficiency across commercial cleaning contracts.

Supply Chain Coordination

Created an SAP Ariba-inspired operational planning system integrating inventory forecasting, vendor coordination, purchasing workflows, and staffing demand tracking using Excel and Power Query.

TBC Operations Workflow System

Developed a scheduling and accountability tool using Python and HTML automation to support task assignment/operational tracking.

Movie Theater Stocks Analysis

Developed a financial and market performance analysis comparing AMC, Cinemark, and Cineplex using Power BI and Excel to evaluate stock trends, revenue, EBITDA margins, debt structure, and earnings performance across the movie theater industry.
